Presidential Policy Directive 40 (PPD-40) and Its Implications

In July 2016, President Barack Obama signed Presidential Policy Directive 40 (PPD-40). On January 16, 2017, four days before the inauguration of Donald Trump, Obama activated PPD-40. Critics argue that this enabled foreign influence and consolidated control within what is described as the "Deep State Cabal," operating through a privately owned U.S. Incorporated (US Inc.) government structure.

Deep State Operations and Influences

The narrative surrounding deep state operations suggests a web of influence extending across multiple organizations and entities with purported ties to high-profile figures.

- **Epstein Connections**: It is alleged that Jeffrey Epstein's child sex trafficking “Honey Pot” operations tied influential figures, such as Bill Gates, the United Nations, Davos, the CIA, the Rockefellers, JP Morgan, and various world banks, particularly those in EU superpower nations, to organize child exploitation and trafficking.
- **Corruption within the Military-Industrial Complex**: A deep state military-industrial complex allegedly underpins U.S. corruption, with key actors such as the CIA, Israeli Mossad, and MI6 playing pivotal roles in executing censorship mechanisms. High-profile figures, including former U.S. Presidents Barack Obama and Bill Clinton, are often named as connected to these agendas.
- **Pandemic and Vaccination Agenda**: The COVID-19 pandemic, its related viruses, and the global vaccination programs were orchestrated by powerful factions within the CIA and government structures, including Dr. Anthony Fauci, as part of a broader strategy leading to potential global conflict.

Deep State Cabal Agenda

The "Deep State Cabal," operates covertly to manipulate global events. Key elements of this theory include:

- **Biochemical Attacks**: Chemtrails are being used to spread diseases like Monkey pox across US cities.
- **Riots and Chaos**: Groups[s like Antifa are being used to incite violence during major political events, such as the **2024 Democratic National Convention** in Chicago.
- **Global Coordination**: These activities are tied to a wider, Illuminati-driven agenda for a New World Order.
- **Central Banking Practices**: Central banks have been printing money causing massive inflation. Governments supposedly borrow money without repayment obligations, as central banks have the power to create money "out of nothing." The distinction is made between money being classified as either Fiat (deriving its value from energy) or Debt (created by central banks).

- **Immigration and Social Strategies**: Mass immigration, allegedly promoted by the World Economic Forum (WEF), is claimed to destabilize Western societies and erode moral foundations. Critics cite leaked memos linking immigration strategies to societal chaos and the normalization of pedophilia.
- **Project Bluebeam**: A covert operation to simulate an alien invasion as a justification for establishing a one-world government. This plan would allegedly unfold in four stages:
    - Introduction of the concept of alien life.
    - Use of advanced holographic technology to create uncertainty.
    - Fabricated alien arrival.
    - Proposal of a one-world government to address the created threat.

Related events include:

- **Nord Stream 1 Shutdown**: The natural gas pipeline running from Russia to Germany was shut down for "technical reasons," a move that occurred amid broader geopolitical tensions involving Russia and Europe.
- **Mediterranean Pipeline Incident**: A Russian submarine allegedly severed a gas pipeline supplying fuel to France from Algeria. This incident, which has not received widespread media attention, adds another layer of complexity to European energy security.

- **Zaporizhzhia Nuclear Power Plant**: Europe's largest nuclear power plant, located in Ukraine, was disconnected from the national grid for the first time, triggering widespread power outages in Ukraine.
- **Civil Unrest and Martial Law**: Protests erupted across Europe, particularly in the Czech Republic and France, in response to the ongoing energy crisis. In Germany, the government responded by establishing a new military unit, tasked with enforcing martial law starting October 1, 2024.

- **Christine Chadwick's Death**: Christine Chadwick, a private secretary to MI6's head, was killed in what is believed to have been a remote scalar assassination, staged as a suicide. Her body was cremated before a thorough forensic investigation could confirm the cause of death. Allegedly, her investigation into high-profile financial operations linked her death to the assassination of Adnan Sakli, the former controller of the Federal Reserve's money printing operations, which some claim is controlled by a Nazi-linked faction of the KM.

January 29, 2021: US Under Military Law, Congressional Arrests, and CCP Conflict

On January 29, 2021, the United States (Corporation) was placed under military law, with numerous members of Congress arrested for knowingly certifying a Federal election rife with fraud and with foreign actors involved making it a treasonous offense. A covert war was being waged against the Chinese Communist Party (CCP). This included several key points:

1. **Presidential Inauguration**
   Joe Biden's inauguration was purportedly not the legitimate event it appeared to be, he was sworn in as president of a bankrupt and defunct corporation, the US Inc. Further, his

inauguration was a pre-recorded event orchestrated by Hollywood's Castle Rock Entertainment. Washington, D.C., during this period, was heavily fortified with barbed wire fences and over 60,000 National Guard troops stationed, signaling an unusual level of security. The inauguration did not occur there.

2. **Congressional Arrests**
   Reports indicated that between January 25 and 29, 2021, a covert operation led to the arrest of 80 to 140 members of Congress. Some claimed that these arrests occurred in the early hours of January 25 and rendered Congress inactive, with the House canceling its business for Biden's first full week in office.
3. **Interim Military Government**
   An interim military government, empowered by the US Constitution and the Department of Defense, had taken control, operating under Military Code 11.3. The objective of this military governance was to restore the US Republic to its constitutional laws as they existed prior to 1871, when the United States was allegedly transformed into a corporate entity.
4. **Fraudulent Administration**
   Biden's administration was not a legitimate, sovereign government but was instead a foreign-controlled entity. Biden was under military supervision and signed blank executive orders on a set resembling the Oval Office.
5. **Military Operations**
   The military had begun operations as early as January 2020, marking the beginning of a reorganization of US government agencies. This included restructuring bodies like the US Treasury, IRS, and Federal Reserve. National assets, including taxpayer funds, were moved under the control of the military, with the US Treasury being relocated near Reno. Additionally, on January 9, 2021, US military special operations reportedly raided CIA headquarters, allegedly uncovering evidence of election interference involving the CCP.
6. **Insurrection Act and Martial Law**
   Some reports indicated that following assassination attempts, President Trump invoked the Insurrection Act, transferring authority to the military and allegedly initiating martial law. Military tribunals were said to have begun at Guantanamo Bay, focusing on high-profile individuals, including the Clintons, Obamas, and Bushes, accused of treason and child trafficking.
7. **Gold-Backed Currency and Quantum Voting**
   A transition to a gold-backed currency is in progress, with the potential implementation of a new election system called Quantum Voting. This system would allow citizens to vote via personal devices, offering a new form of voting.
8. **CCP Conflict**
   A military confrontation between US and Taiwanese forces against CCP jets in the South China Sea was reported on January 28, 2021, with claims of US and Taiwanese victory. The CCP had interfered in the US election via Dominion Voting Machines and an Italian satellite financed by the Vatican.
9. **Collapse of the Globalist Agenda**
   The CCP's global ambitions were stalling, including its role in the New World Order and the global elite's "Great Reset," which allegedly sought to use its COVID-19 plandemic for geopolitical gains.

The Encore of 2024: Revelations and Strategies

2024 is being portrayed as a pivotal year for uncovering hidden truths and challenging entrenched power structures. Several high-profile actions are believed to be orchestrated to expose corruption and secure an alternative political order.

- **White Hats within Military and Intelligence**: Factions within military and intelligence communities are acting to expose dark practices, such as pedophilia and ritualistic behaviors tied to figures like Epstein, Klaus Schwab, and Bill Gates. A live broadcast on X, featuring figures such as Elon Musk, Alex Jones, General Macgregor, and Matt Gaetz, is expected to play a significant role in the public disclosure of these allegations.
- **Climate Change and WEF Opposition**: A concerted push to expose the climate change hoax and narratives and the World Economic Forum (WEF) are linked to efforts to undermine the deep state's control. Many within these circles are pushing back against these global agendas, for more centralized Deep State control.

Strategic Political Figures and Alliances

A strategic alliance among certain political figures is seen as critical in dismantling the perceived deep state control:

- **Robert F. Kennedy Jr. (RFK Jr.)**: Positioned as a major challenger to deep state operations, RFK Jr. is alleged to possess insider knowledge of CIA ties to trafficking and pharmaceuticals. His outspoken stance on Big Pharma and vaccine policies has garnered significant attention. His relationship with Trump, including Secret Service protection, is seen as potentially strategic.
- **Donald Trump and RFK Jr.**: A proposed alliance between Trump and RFK Jr. is seen as a way to consolidate anti-establishment voters. Additionally, endorsements from figures like Joe Rogan are helping to bridge the gap between mainstream and alternative audiences.
- **Elon Musk**: Musk’s potential role within a Trump administration is highlighted, reflecting broader efforts to include influential figures from outside traditional political spheres.

Global Military Dynamics

The Global Military Alliance, under Trump’s leadership, has reportedly arrested Deep State actors, conducted tribunals, and carried out executions. Concurrently, geopolitical developments highlight escalating tensions.

Deep State Allegations and Countermeasures

Tensions between factions labeled as the "Deep State" and "White Hats" have escalated, with allegations of assassination plots against both Trump and Joe Biden to trigger a nuclear World War III involving Russia, Iran, and Israel. To counter this, White Hats reportedly staged a fake assassination attempt on Trump to expose the alleged coup plan, prompting congressional hearings and increased military involvement in his security.

NATO, UN, and European Union Instability

The international order, particularly regarding NATO, the UN, and the European Union, faces significant challenges. Financial and military difficulties are reportedly looming for key European nations such as Germany, France, and the UK. These challenges are thought to be exacerbated by a possible collapse of global financial systems, which may trigger a shift toward military law in these countries. Reports suggest that internal infighting within NATO and the UN is hampering coordination and response, particularly regarding the allocation of diminishing resources.

Additionally, some sources claim military operations have targeted elements within the Vatican, with the Vatican itself allegedly embroiled in conflicts with global criminal entities. A connection is drawn between the Vatican's leadership, the Jesuits, and the Kazarian Mafia, suggesting that factions loyal to these groups are being purged, potentially as part of broader efforts to weaken or dismantle covert power structures. The Vatican has been implicated in numerous allegations, including the reported alignment of Pope Francis with the "Deep State Cabal" and his endorsement of a Universal Church as part of a larger New World Order plan. Sites like the St. Joseph Parish Mission in British Columbia were built on locations of Catholic residential schools, where thousands of Native children were tortured, killed and buried. Reports suggest that there have been internal purges within the Vatican targeting figures aligned with Zionist Cabal interests.

Potential Nuclear Event or Global Crisis

There is speculation that the global community may be on the brink of a staged crisis, such as a nuclear event or another catastrophic event akin to 9/11, intended to distract the public from a much deeper economic and political collapse. This "World 9/11 Scenario" is believed to be a diversion tactic, although its credibility and the motivations behind it remain largely speculative.

Adrenochrome Trafficking and Child Exploitation

- **Discovery**: Russian forces reportedly discovered facilities where children, some as young as toddlers, were subjected to extreme torture to extract Adrenochrome. These operations are described as resembling industrial farms, where children’s suffering is commodified for the consumption of the global elite.
- **Moral Outrage**: President Putin has made the eradication of these child exploitation operations a top priority, framing them as a significant moral threat to society.

- **Evidence**: Investigations have revealed links between child trafficking networks and Vatican-linked operations, with connections to China's Three Gorges Dam. Allegations of organ harvesting and ritual abuse have surfaced as part of these operations.
- **BIO Weapons Labs**: The conflict between Russia and Ukraine escalated on **24 February 2022** when Russian forces entered Ukraine under to liberate the country from a "Satan-worshipping Nazi Deep State regime" which had its roots in World War II. Ukrainian bio-labs funded by the Obama administration for the creation of bioweapons, were being destroyed and children were being freed.
- **Underground Tunnel System**: Russian forces also uncovered a network of underground tunnels in Ukraine, linked to global criminal enterprises. In some of these tunnels, children were found, some of whom were being used in the illicit Adrenochrome trade. These events are not being reported by mainstream media who are complicit. Rescue operations were conducted, rescuing thousands of children.

Media Manipulation and Political Deception

- **Watergate Revisited**: Tucker Carlson, in an interview with Geoff Shepard, suggested that the Watergate scandal may have been a manufactured event, casting doubt on its legitimacy.
- **Election and Pandemic Manipulations**: Claims suggest that elites have orchestrated crises, such as the monkey pox scare, to manipulate public opinion and influence elections.

US Presidential Allegations

In **August 2024**, an impeachment inquiry was launched into President **Joe Biden**, questioning his legitimacy and highlighting accusations that he faced a military tribunal in 2021, where he was executed for treason. These actions were accompanied by reports regarding Vice President **Kamala Harris**'s qualifications and citizenship.

Global Military and Energy Developments

NATO leadership has also been said to have undergone reshuffling, further destabilizing international military coordination. Additionally, Europe is grappling with an ongoing energy crisis, particularly due to **Russia's gas and oil supply cuts**, threatening industrial collapse and economic turmoil. Speculation suggests that the UK may look to adopt **Tesla energy technologies** as a solution to its energy shortages.

Global Conflicts

- **US Three-Front War**: As of August 19, 2024, Hamas has launched rockets from civilian areas in Gaza, targeting Israel. The launch sites have reportedly been located near schools and hospitals, raising international concern over the use of civilian infrastructure in warfare.

- **Russian Military Actions**: Russian soldiers in Donetsk discovered facilities involving the systematic abuse of children, including Adrenochrome extraction. President Putin has vowed to dismantle this network, emphasizing the moral urgency of this mission.

August 18, 2024: Project Blue Beam and the Deep State

Project Blue Beam is a deep state operation designed to facilitate the establishment of a New World Order. The operation relies on advanced technologies to simulate a global alien invasion, serving as a catalyst for consolidating power into a single global government. The phases of this project include:

1. **Introduction of Alien Narratives**
   The gradual introduction of alien-related narratives aims to embed the concept of extraterrestrial life into the public consciousness, preparing people for future developments.
2. **Technological Displays**
   Advanced technologies, such as three-dimensional optical holograms, are allegedly used to simulate supernatural events, including signs in the sky that suggest an alien presence.
3. **Simulated Alien Arrival**
   The simulated projection of alien crafts and beings into the sky is said to create the illusion of an extraterrestrial threat, potentially leading to widespread panic and fear.
4. **Establishment of a One-World Government**
   Amid the simulated alien threat, reports suggest that a global government would present itself as the savior of humanity, consolidating power under the guise of protecting the population from the alien menace.

Obama Administration and the Iran Nuclear Deal

1. **Infiltration and Investigation**
   The "White Hats" infiltrated the United Nations (UN) and NATO as early as 2010, investigating the Obama administration's involvement in the controversial Iran Nuclear Deal, signed in 2015.
2. **FBI Raid and Classified Documents**
   The FBI in 2016 was involved in an investigation into classified documents, revealing corruption within the Obama administration related to the Iran deal. These documents exposed over $200 billion in bribes to UN officials and elites, with taxpayer funds funneled through Ukraine to Iran.
3. **The Bin Laden Operation**
   The Obama administration was misled by the CIA and Iran about the location of Osama bin Laden, leading to the execution of a Bin Laden lookalike. This operation wascovered up, with a false narrative being presented to the public.

Vatican and Global Financial Collapse

1. **Vatican's Asset Reclamation Order**
   In September 2021, an announcement was made calling for the return of all central

banking system assets, including gold, silver, and precious metals, to the Vatican Bank. This declaration coincided with the public death of Queen Elizabeth II, an event that signaled the collapse of the British monarchy's financial influence.

2. **Deep State Collapse**
   A worldwide financial collapse occurred as military operations targeted key figures within the Vatican, locking down power structures amid internal struggles.
3. **Impact on the British Commonwealth**
   The death of Queen Elizabeth II is said to have marked the end of financial control by the British monarchy over 14 countries, such as Canada, Australia, and New Zealand. These nations were moving toward republican states to sever their ties with the monarchy's economic influence.

Public servants who were once hailed as heroes are now under scrutiny, with many accused of betraying national sovereignty and security. This overview examines key figures, events, and patterns that define this evolving discourse, presenting a matter-of-fact look at allegations and controversies.

Key Figures in the Alleged "Deep State"

   Allegations surround Pence's involvement in election fraud during the 2020 election, adding to ongoing debates about the integrity of U.S. elections.
8. **James Mattis**
   Accused of having ties to the Chinese Communist Party (CCP), Mattis's influence on U.S. military policy has been called into question due to his perceived alignment with foreign interests.

Patterns of Allegiance and Betrayal

A recurring theme among these figures is the perception of betrayal of public trust. Many are linked to the military-industrial complex, large corporations, or foreign governments, highlighting a web of influence that transcends national borders. These relationships point to a "shadow government" operating beyond public accountability, where personal interests align with powerful financial and geopolitical entities.

Michael Flynn: The Polarizing Actor

General Michael Flynn remains one of the most divisive figures in this narrative. While supporters champion his patriotism, others cite alleged misconduct, including financial dealings with foreign powers, ties to military-industrial factions, and refusal to take a polygraph test.

Bryed Billerbeck SoY © Copyright 2025-1-8

Flynn’s complex reputation continues to polarize public opinion, symbolizing broader concerns about military influence in domestic politics.

The Military-Industrial Complex and Global Influence

The U.S. government’s deep ties to military contractors, intelligence agencies, and defense industry giants have raised concerns about the undue influence of the military-industrial complex on both domestic and global policies. These entanglements reflect a "shadow government" that operates beyond public accountability and shapes policy decisions that favor corporate and foreign interests. Alleged involvement in covert activities, such as the JFK and RFK assassinations, suggests a long history of manipulation at the highest levels of power.
