The Truth About the FED, IRS, CB, CIA, Fiat Currency, etc.

Origins of the Modern U.S. Monetary and Banking System

- **1871**: The US monetary system was formalized under "US Inc.," paving the way for a system benefiting private entities rather than the public.
- **1913**: The Federal Reserve (FED) was created, along with the IRS, to manage monetary policy and collect taxes. These institutions were controlled by private interests, including the Rothschilds, Rockefellers, and others linked to the Illuminati, Bilderbergs, and other global elites.
- **Monetary Flow**: Taxpayer money collected by the IRS was funneled through the Federal Reserve to the Bank of London, Vatican Bank, and global Central Banks before returning to the New York Bank of Mellon. U.S. taxpayers were then forced to borrow their own money to fund government operations, after most tax payer funds were laundered into Deep State projects, creating and perpetuating national debt.

Key Historical Milestones

- **1932**: The FED's excessive printing of fiat currency led to U.S. bankruptcy.
- **1971**: President Nixon removed the U.S. from the gold standard, further embedding the fiat currency system.
- **2008**: The U.S. experienced an official bankruptcy under US Inc., resulting in the rise of the BRICS alliance (Brazil, Russia, India, China, South Africa). This alliance aimed to establish an asset-backed global financial system.
- **2012**: The U.S. defaulted on its loans, making China its primary creditor.
- **2012-2024**: Fiat currency systems continued to erode, while alliances like BRICS advanced asset-backed financial systems.

The **FED, Central Banks, and Fiat Currency**

- Federal Reserve was established under dubious circumstances, including:
  - **Titanic Sinking**: Allegedly orchestrated to eliminate prominent figures opposing the Federal Reserve's creation.
  - **Khazarian Influence**: Elite Khazarians and Rothschild descendants controlled the FED, fostering wars and economic instability for profit.
  - **Unconstitutional Nature**: The FED operates independently of U.S. government oversight, serving globalist interests.
- **Fiat Money**: Two types are identified:

  1. Energy-derived money, mischaracterized as fiat.
  2. Debt money created by central banks from nothing.

Modern Manipulations and DARPA's AI Agenda

Bryed Billerbeck SoY © Copyright 2025-1-8

- **Lockheed Martin and DARPA**: A $37.2 million deal funded the SemaFor AI project, aimed at global surveillance under the guise of combating disinformation.
    - This AI technology seeks to control narratives, suppress dissent, and create highly convincing disinformation to maintain elite power structures.
    - Examples include the censorship of COVID-19 vaccine data and narratives about prolonged wars, such as in Ukraine.
- **Global Efforts**: Countries like China and Russia also develop AI tools for population control, aligning with DARPA's objectives.

FED's Current Role and the Push for Abolition

- **2024 Revelations**: Pallets of cash linked to the Federal Reserve were discovered in Damascus, funding wars and destabilization. QR codes on the pallets traced back to accounts at the Federal Reserve Bank of New York.
- **Media and Government Silence**: Mainstream outlets and political entities remain complicit, avoiding scrutiny of the FED's activities.
- **Calls for Action**:
    - Utah Senator Mike Lee and Elon Musk proposed abolishing the FED, citing its unconstitutional and exploitative nature.
    - Tariffs, not income tax, were highlighted as historically effective in building national wealth.

Historical and Biblical Context

- The Khazarian Mafia's influence has shaped global events, including the creation of the United Nations and European laws. Wars and propaganda were tools for dominance.
- Damascus, a city central to biblical prophecy (Isaiah 17), symbolizes modern corruption intertwined with ancient narratives.

Conclusion

The Federal Reserve, IRS, and associated institutions represent a long-standing apparatus of control and exploitation. Efforts to abolish or reform these entities face significant resistance from entrenched globalist powers. As the system teeters under mounting debt and societal awakening, the path forward may require both structural and ideological shifts to restore sovereignty and accountability.

The FED, IRS, CIA, CB, Fiat Currency, etc.

It all began back in 1871 when the US monetary system was formed under US Inc. By 1913 this illegal enterprise – eventually composed of the Cabal Illuminati, Bilderbergs, Trilateral Commission, Skull and Bones, G8, Bankers and private parties headed by the Rothschilds – collected US Taxpayer monies via US Inc, the British Crown and Vatican through their privately owned IRS.

· **Monies were transferred through their privately owned Federal Reserve** to their privately owned Bank of London, where it was then given to the privately owned Vatican Bank and dispersed to privately owned Central Banks across the globe, filling their privately owned pockets and those of large corporations, global and political elites they wished to influence, along the way. See: Queen Elizabeth, Vatican, Canadian Government Murdering Witnesses to Child Murders:

· **About a month later the US Taxpayer monies arrived back into the privately owned New York Bank of Mellon coffers**, where US Taxpayers were forced to borrow on their "privately owned" monies in order to pay US government employees – a prime reason for the national debt.

· **Throughout the Federal Reserve's history** there has been no public accounting, or audit.
By 1932 the Fed had printed so much fiat currency that the USA Inc. was bankrupt. By 1971 President Nixon had taken the US off the gold standard.

· **The fiat US Dollar system actually lasted to a 2008 official US Inc. Bankruptcy**, after which an alliance called BRICS (Brazil, Russia, India, China, South Africa) formed a global asset-backed financial system for 209 nations, under which US Inc. and their fiat US Dollar hobbled up to 2012, only to default on their loan – that made the Chinese as their primary creditor.

· In a 1998 video of David Icke everything he said was playing out right now. They are talking about chip implants, forcing everybody to have a digital ID / vax passports and programmable Central Bank Digital Currencies.

THURS. 11 JULY 2024 WHY DID Q TELL YOU THAT ISRAEL WAS SAVED FOR LAST?, Ben Fulford

· The reason is Israel is the KEY to bringing down the Global Deep State. (This isn't anti-semitism. I'm referring to the Kazarian Jews the fake northern European Kazars who stole the identity of real Jewish people and created the Rothschilds /Rockefellers.

· The Rothschilds /Rockefellers all came from South Germany where they created the Illuminati in 1776.

· In South Germany the Rothschilds /Rockefellers took control of the local governments. They financed the trains and public roads, created the Rothschild banking systems throughout Europe and helped JP Morgan take over the U.S. banking system.

· The US Banking System was created after sinking of the Titanic that killed prominent U S. Bankers and rich tycoons who were against creating a Federal Reserve

Bryed Billerbeck SoY © Copyright 2025-1-8

· The Federal Reserve was set up and controlled by Elite Khazarians – the fake Ashken Nazi Jews who made a deal with the Roman Empire. The Khazarians named themselves Jews and bought off Jewish Leaders so they could practice their own form of Judaism.

· Now to this day the Elite families of Khazarian descendants control Israel (it was [they] Kazarians who created Rothchilds banking) and then created the WORLD WARS to install governments and loan money for wars and created 70% European laws through war and propaganda. To this day the GLOBALIST/Kazariams run Israel and created the United Nations and took over countries and governments.

In effect, today's gaggle of Central Bankers are doing something that Central Bankers of the past could only dream of: printing money without causing inflation.

· Politicians, too, are enjoying this unique opportunity for recklessness. They will be able to do what no one could do before: borrow money without paying it back.

· The public has not yet read about this in the press, but it will soon. However, readers who have understood the money scam explained previously already know that there is no need for governments to repay their loans to central bankers, because the money they lent to governments didn't come from taxpayers, it came from nowhere, like the rest of the world's money.

· There are two kinds of money in circulation: (1) Money derived from energy is wrongly called 'fiat money.' (2) Money derived from NOTHING, created by central banks is 'debt money'.

Lockheed Martin’s $37.2 Million Deal with DARPA: The SemaFor AI Project That Will Hijack Your Data and Turn It into a Weapon of Total Surveillance!

Lockheed Martin just secured $37.2 million of YOUR tax dollars to develop SemaFor, an AI tool for DARPA, the Pentagon’s dark arm. This isn’t just about technology—it’s about surveillance.

SemaFor claims to fight “disinformation,” but the real goal is to monitor everything you do, say, or think. DARPA doesn't care about deepfakes or fake news. That’s a cover story. What they’re building is a system to control every aspect of your life, tracking your conversations, your search history, even your thoughts.

This is total control under the guise of stopping lies. DARPA’s real goal is to decide what’s real and what’s fake, controlling the truth itself. They’ll label anything that challenges their narrative as “disinformation,” and you won’t even know it’s happening. The tool meant to detect lies will be used to create the most convincing lies ever.

Bryed Billerbeck SoY © Copyright 2025-1-8

This isn't just Lockheed Martin or DARPA. This is a global effort. Big Tech, Big Pharma, and corporate media are all working with DARPA to keep you in check. Remember the Covid vaccines? They told you they were "safe and effective" while suppressing the real data. Now, with SemaFor, any inconvenient truths will be erased before you even see them.

Look at the Ukraine war. The U.S. plans to fund it for another 10 years, and when the public turns against it, DARPA's AI will silence any opposition, labeling it as fake news. This is all part of their playbook.

DARPA has been spying on Americans for decades, but with SemaFor, they'll control the very content you see. Worse, this AI won't just detect disinformation—it will be used to create it. Imagine a world where the government can manufacture videos, images, and audio so realistic, you can't tell the difference. They'll rewrite history, and anyone who tries to speak out will be silenced.

This is global. China, Russia—they're all building similar AI tools for population control. Social media platforms are already censoring you, working directly with the government to crush free thought.

Once DARPA's tool is perfected, it won't stop at surveillance. They'll use this AI to predict and suppress dissent before it happens. Every thought, every opinion, monitored, erased if necessary.

This is the endgame. If they control the narrative, they control the world. SemaFor is their weapon of mass control, ensuring that we-the-people never rise up against their tyranny.

Wake up. This is happening now. DARPA, Big Tech, Big Pharma—they're all coming for you. If you think they're doing it for your benefit, you're already lost.

16 Oct. 2024 The Corrupt Privately Owned Federal Reserve *…Patriot 17 on Telegram*

· ***The FED system (created in 1913), is part of a world banking system controlled by a coterie of international bankers and industrialists acting in unison to enslave the world for their own demented pleasure.*** *This is not hyperbole. The FED is widely known as one of the leading financial institutions in the world, as their actions can spur or avoid national depressions. It's run by a board of governors, who most people do not know and most certainly do not elect. At this moment in U.S. history, the FED and the aristocracy behind it has decided to crawl out from behind the shadows. These modern-day aristocrats now known as globalists, are no longer concerned with secrecy and are now ready to unapologetically "conquer" the United States once and for all.*

· ***The "FED" is assumed to be a part of the federal government, yet it is privately owned and was created near the turn of the 19th Century by a group referred to as the "money trust".*** *This trust*

Bryed Billerbeck SoY © Copyright 2025-1-8

consisted of a few, but very wealthy and powerful Americans. This elite group still exists and are now known by the term globalists. These globalists control the purse strings of the world, and most Americans have no idea who they are.

· ***For example, the FED that sets so many conditions for our daily lives have never received a meaningful audit*** *(maybe Elon Musk can examine the FED as part of making our government more efficient). The FED makes its own policies and is NOT subject to the POTUS or CONGRESS. Members of the FED are hand selected for their loyalty to those globalist institutions and individuals who need their influence (ie., private banks within the system select 2/3rds of the members for 14-year terms!).*

· ***When it formed, why didn't they make it part of the US Government?*** *Among the many reasons, control of the U.S. Treasury is a centerpiece of its early formation. This allowed private bankers to gain access to public funds (taxpayer dollars) in our treasury, allowing them the capacity to lend and, more important, collect interest. Additionally, during the FED's early formation, the trust also gave the FED access to the nation's money supply and an ability to control interest rates. How convenient. Don't get me wrong, there have been helpful calculations, market rate adjustments, and various other financial applications applied to achieve positive ends for the good of the country. But, in the end, these were likely meant to shape the economy to benefit the few at the expense of the many.*

· ***Before weighing into how they plan on shaping an entirely new global economic system, I need readers to understand who these people in the FED are.*** *It has been staffed with the globalists' cronies from Wall Street, or they are hand selected from the Halls of Congress or off select White House staffs or from certain "think tanks", principally the Council of Foreign Relations. Bottom line, these are seriously connected people, with great influence, but even they are not the final decision makers.*

· ***Since its inception, the FED has morphed along with the historically challenging times throughout the 20th Century and now into this, the 3rd decade of the 21st Century.*** *This was a blending of the FED's roles and responsibilities as it related to a rapidly growing global economy. This is where we see the shift from protecting the United States economy to becoming a principal participant in a global economy. American's financial strength clearly took on greater importance and the globalists took far greater advantage of the wealth of the America people. The shift from a money trust" to a world economic forum, along with its world bank and other globalist institutions is currently why we are so challenged currently to maintain our democracy and our financial strength.*

· ***The above offers only a glimpse into why our country is in its current dire situation*** *(more than $35T in debt, never mind numerous other global and domestic challenges). Those who have been tracking the FED and the global institutions impacting the American taxpayer have likely understood this for some time.*

11 NOV. 2024: UNCONSTITUTIONAL FEDERAL RESERVE SHOULD BE ABOLISHED …Capt.Kyle on Telegram

Thanks to Federal Reserve Board Chairman Jerome Powell's cocksure arrogance and recent public comments that President Trump can't dismiss him, Utah Senator Mike Lee & incoming Director of the new Department of Government Efficiency (#DOGE), Elon Musk, have both echoed these 2 truths:

1) The Federal Reserve is NOT now, nor has it ever been, authorized to exist by our U.S. Constitution, and

Bryed Billerbeck SoY © Copyright 2025-1-8

2) President-elect Donald Trump and the incoming 2025-26 Congress should pass legislation that abolishes this so-called "untouchable" and un-Constitutional banking cartel that feeds the DC Swamp, the Military-Industrial, Media-Industrial, Maritime-Industrial and Medical-Industrial Complexes via its' wealth-extracting IRS Code, income-taxes and fiat-money printing/inflation monopoly designed to enslave, destroy, divide, poison and control everyone of us.

Tariffs work, and they always have. Except for the purpose of grotesque profiteering by Central Bankers in charge of running the Marxist-Aethiest inspired banking system invented by its' founding father, Lord Amstel Bauer Rothschild.

QUESTION: How in God's name will the Hidden Hand "Masters of the Universe" continue to CONTROL US ALL if they lose their privately-owned and for-profit, Divide & Conquer taxation powers?

Patriot Front Shutting Down - Same Day as FBI Director Leaves!

HAL TURNER | NATION
| DECEMBER 12, 2024 | HITS: 1534

Bryed Billerbeck SoY © Copyright 2025-1-8

What does THAT tell you?

It leads me to conclude the PATRIOT FRONT was an FBI Operation from its inception. I further conclude they created this group with the intent to frame Patriots and jail them.

Now that Chris Wray is going to be ousted, they realize the new Director will have none of this crap, so they're announcing they're closing down before they get shut down.

The whole thing was a trap.

12 DEC. 2024 BREAKING: PALLETS OF CASH DISCOVERED IN DAMASCUS GOVERNMENT BUILDINGS LINKED TO THE FEDERAL RESERVE:

· A shocking revelation has surfaced in war-torn Damascus: pallets of cash, neatly stacked and wrapped, discovered in government buildings. The twist. QR codes on the packages allegedly link them directly to the Federal Reserve Bank of New York. This explosive find uncovers what many have long suspected—a global banking conspiracy funding chaos and war.

· The Smoking Gun: Federal Reserve Connections: When scanned, the QR codes on the cash pallets reportedly trace back to accounts tied to the Federal Reserve. This isn't just loose change; it's a staggering amount of money capable of fueling wars, arming militias, and destabilizing nations. This connection to a U.S.-based financial institution raises one glaring question: Why isn't this headline news.

· Media Blackout and Deep State Silence: Not a peep from the mainstream media. No investigations, no breaking news alerts—just deafening silence. Why. Because this isn't just another scandal; it's the unraveling of the very system the elites rely on to maintain control. Congress. Silent. The media. Complicit. The swamp runs deeper than we imagined.

· Biblical Prophecy and Modern Corruption Collide: Damascus, a city prophesied in Isaiah 17 to become a 'ruinous heap,' now stands as both a literal and symbolic battleground. Years of war have reduced it to rubble, and now, the discovery of these cash pallets adds a chilling layer to the narrative. Could this be orchestrated chaos, funded by the global elite to fulfill their dark agendas.

· Trump's Moment to Strike: With Donald Trump set to return to the spotlight, this revelation couldn't be more pivotal. Trump campaigned on promises to expose the deep state and drain the swamp. This discovery is the perfect opportunity to act. He must demand a full investigation, expose the Federal Reserve's involvement, and dismantle the networks funding destruction.

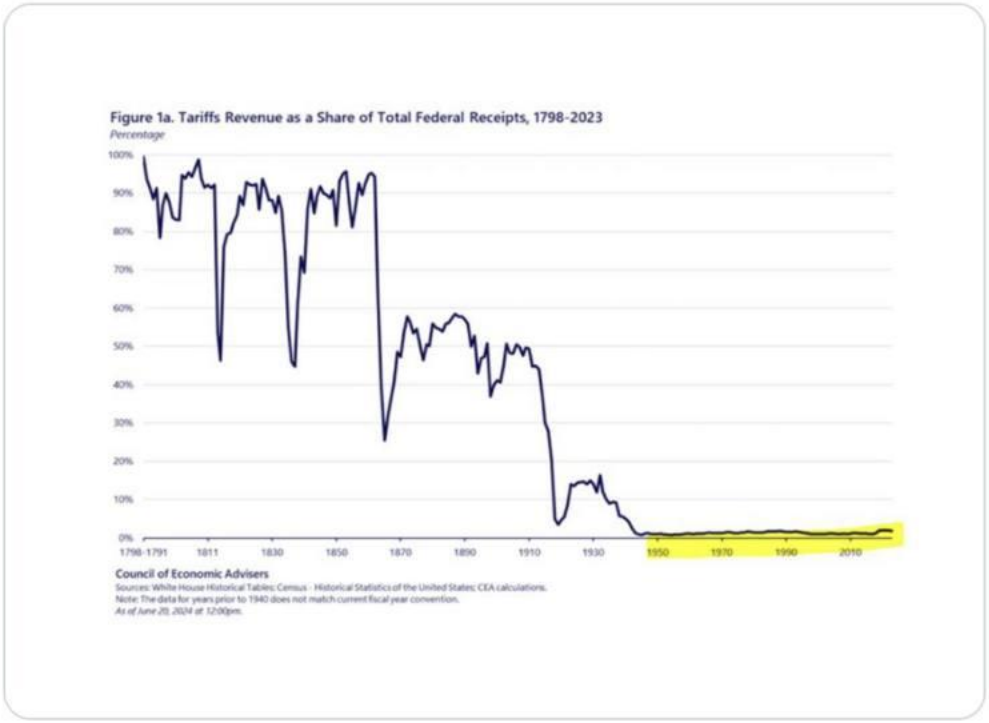

· The Stakes Couldn't Be Higher: This isn't just about Syria. It's about a system profiting from war and suffering, a system that operates in the shadows, untouched by accountability. The discovery in Damascus is more than a scandal—it's the key to unraveling a global conspiracy.

The Tariffs, and Tariffs alone, created this vast wealth for our Country. Then we switched over to Income Tax. We were never so wealthy as during this period. Tariffs will pay off our debt and, MAKE AMERICA WEALTHY AGAIN!

Bryed Billerbeck SoY © Copyright 2025-1-8

Marc Andreessen
@pmarca

This is a really remarkable chart of tariffs as % of total federal revenue. The Second Industrial Revolution, perhaps the most fertile era for technology development and deployment in human history, was 1870-1914.
